

TABLE OF CONTENTS

	<u>Page Number</u>
I. PROJECT DESCRIPTION AND NEED	
A. Existing Conditions	I-1
B. Project Need	I-2
II. SOCIOECONOMIC & PHYSICAL ENVIRONMENTAL SETTING AND IMPACT ANALYSIS	
A. Demographics	II-1
B. Land Use and Zoning	II-5
C. Geology, Topography and Soils	II-27
D. Vegetation, Wildlife and Aquatic Ecology	II-37
E. Groundwater	II-62
F. Hydrology, Drainage and Water Quality	II-66
G. Utilities	II-96
H. Transportation	II-121
I. Air Quality	II-168
J. Noise	II-174
K. Historical and Archaeological Considerations	II-192
L. Recreation	II-214
M. Municipal Services	II-225
N. Visual Resources	II-238
O. Economics	II-246
III. ALTERNATIVES	
A. Introduction	III-1
B. Analysis of Alternatives	III-4
IV. CUMULATIVE AND GROWTH INDUCING IMPACTS	
A. Cumulative Impacts	IV-1
B. Growth Inducing Impacts	IV-2
V. IRREVERSIBLE AND IRRETRIEVABLE COMMITMENT OF RESOURCES	V-1
VI. UNAVOIDABLE ADVERSE ENVIRONMENTAL IMPACTS	VI-1

TABLE INDEX

<u>Table Number</u>	<u>Description</u>
II-A-1	Existing and Projected Population and Housing Units in the Study Area
II-A-2	Existing and Projected Town-wide Populations
II-B-1	Existing Land Use
II-B-2	Current Development Projects Before the Town and Village of Colonie Planning Boards
II-B-3	Proposed Development through the Year 2005
II-B-4	Existing and Future Land Use
II-B-5	Albany County Airport Facility Requirements Phased Implementation Plan
II-C-1	Soils Exhibit Legend
II-F-1	Pre and Post Development Flows
II-G-1	Summary of Unapportioned Utility Costs
II-G-2	Justification of Apportionment Values for Water Improvements
II-G-3	Summary of Water Improvement Costs Apportionment
II-H-1	1985 Highway Capacity Manual Level of Service Descriptions for Signalized Intersections
II-H-2	Description of Proposed Improvement Actions Required to Minimize or Resolve Existing Traffic Operational Deficiencies Within the Study Area
II-H-3	Summary of Traffic Volume Projections
II-I-1	Predicted Carbon Monoxide Levels - Year 2005
II-J-1	Comparison of Data From ANCLUC Study and Current Operations at Albany County Airport
II-J-2	Typical Aircraft Maintained Overnight by Major Commuter Airlines
II-J-3	Results of Noise Monitoring Conducted Adjacent to Albany County Airport
II-J-4	Suggested Land Recommendations for Airport Noise Zones
II-O-1	Major School District Revenues Sources 1988-1989

TABLE INDEX - CONTINUED

II-O-2	Municipal Costs and Revenues Associated with Projected Development in the Study Area
II-O-3	School District Costs and Revenues Associated with Projected Development in the Study Area
II-O-4	Costs Associated With Projected Development in the Study Area
II-O-5	Airport Area Estimated Development Mitigation Costs
II-O-6	Development Mitigation Cost Calculation: Hypothetical Office Project
II-O-7	Development Mitigation Cost Calculation: Hypothetical Residential Project
III-B-1	Proposed Development Through Year 2005 - High Growth Future
III-B-2	Future Land Use in the Year 2005 - High Growth Future
III-B-3	Summary of Traffic Volume Projections

EXHIBIT INDEX

<u>Exhibit Number</u>	<u>Description</u>
I-A-1	Project Study Area
II-B-1	Existing Land Use
II-B-2	Existing Zoning
II-B-3	Projects Currently Being Reviewed by the Town and Village Planning Boards by Traffic Analysis Zone
II-B-4	Approximate Locations of Projected Development Through the Year 2005
II-B-5	Land Use Management Advisory Council Future Land Use
II-C-1	Slopes Map
II-C-2	Surficial Geology
II-C-3	Depth to Bedrock
II-C-4	Soils Map
II-C-5	Slippage Prone Areas
II-D-1	Vegetative Communities
II-D-2	Surface Water Resources and Wetlands Map
II-D-3	Identified Wild Lupine Communities and Potential Karner Blue Butterfly Sites
II-D-4	Potential Wildlife Habitats Map
II-D-5	Proposed Greenbelts/Greenspace Areas and Existing Town Watercourse Protection/Areas
II-E-1	Depth to Seasonal Water Table
II-E-2	Thickness of Stratified Drift
II-F-1	Drainage Areas
II-F-2	Schematic of Extended Detention Dry Pond
II-F-3	Schematic of Extended Detention Wet Pond
II-F-4	Problem Flooding Areas
II-G-1	Existing Electrical Distribution System
II-G-2	Natural Gas Transmission and Distribution Lines
II-G-3	New York Telephone Primary Cable Lines

EXHIBIT INDEX - CONTINUED

<u>Exhibit Number</u>	<u>Description</u>
II-G-4	Existing Water System Mapping of Transmission and Major Distribution Lines
II-G-5	Existing Sanitary Sewer Collection System
II-H-1	1990 Existing Traffic Volumes
II-H-2	Existing Highway Operational Deficiencies
II-H-3	2005 Projected Traffic Volumes - Cumulative Growth Scenario - PM Peak Hour
II-H-4	Level of Improvements for Option One - 2005 Cumulative Growth Scenario
II-H-5	Level of Improvements for Option Two - 2005 Cumulative Growth Scenario
II-H-6	Route 7 Connector Concept
II-H-7	I-87 Exit 6 Interchange Alternatives Partial Cloverleaf Ramp Arrangements
II-H-8	I-87 Exit 6 Interchange Alternatives Partial Cloverleaf Ramp Arrangements
II-H-9	I-87 Exit 6 Interchange Alternatives Semidirect Interchange with Weaving
II-H-10	I-87 Exit 6 Interchange Alternatives Semidirect Interchange without Weaving
II-H-11	I-87 Exit 6 Interchange Alternatives Semidirect and Directional Interchanges
II-I-1	Air Analysis Intersections
II-J-1	1985 Airport Noise Contours
II-J-2	1995 Airport Noise Contours
II-J-3	Helicopter Arrival/Departure Routes
II-J-4	Noise Monitoring Locations
II-K-1	Historic Resources Map

EXHIBIT INDEX - CONTINUED

<u>Exhibit Number</u>	<u>Description</u>
II-L-1	Existing and Future Potential Recreational Resources
II-M-1	Approximate School District Boundaries
II-M-2	Fire Districts Map
II-N-1	Viewshed Photo Inventory Index
III-B-1	Approximate Locations of Proposed Development Through the Year 2005 (High Growth Future)
III-B-2	Total Traffic Entering/Exiting Study Area PM Peak Hour in 2005 (High Growth Future)
III-B-3	Total PM Peak Hour Trips Generated by Land Use Type in 2005 (High Growth Future)
III-B-4	Percentage Increase of Peak Hour Traffic in 2005 (High Growth Future)
III-B-5	Lanes Needed in 2005 to Maintain 1989 Conditions (High Growth Future)
